Science College HATKANANGALE, Dist. Kolhapur.

2019-20

The Action Taken Report for the year 2019-20 based on feedback from College students, teachers, alumni, and various industry bodies suggests several recommendations for curriculum development and improvements in teaching methods. Here's a summary of the key points and actions taken:

Curriculum Design: Feedback indicates that the curriculum should be designed to include a diverse range of subjects and courses. This should encompass skill-based courses, employ ability-enhancing modules, communication skills, industry management, market and sales management, and proficiency in languages like Marathi, Hindi, English, Economics, Commerce, and Management.

Recommendation to Shivaji University Kolhapur: The feedback committee recommends that these curriculum changes be presented to the Board of Studies at Shivaji University Kolhapur for further consideration and implementation.

Research and Teaching Aids: Faculty members suggest the development of new teaching technologies and the use of teaching aids to improve the teaching process. The institute is expected to take action based on these suggestions.

Employer Feedback: Various industrial organizations within the college premises emphasize the importance of students possessing relevant skills. They recommend the inclusion of management, sales management, and communication skills in the curriculum. Furthermore, economics, commerce, and business administration are also recommended for curriculum inclusion.

Alumni Feedback: Alumni suggest that the curriculum should focus on practicality, modern techniques, and employ ability. They stress the need for a curriculum that evolves with the times and teaching methods that are relevant to the current era. These recommendations have been forwarded to the concerned Board of Studies for action.

summary, the Action Taken Report highlights the importance of a comprehensive curriculum that includes a wide range of subjects and skills to enhance students' employ ability and practical knowledge. It also underscores the significance of adapting teaching methods and technologies to meet the evolving needs of students and the job market. The recommendations made by different stakeholders have been forwarded for further consideration and implementation.

Action Taken Report for the Academic Year 2020-21

Curriculum Enhancement:

Based on the feedback received from college stakeholders including students, teachers, alumni, and industry bodies, recommendations were made to enhance the curriculum. The suggestions included:

Designing a curriculum that incorporates courses focused on skill development, employability, communication skills, industry management, and market and sales management.

Including courses in multiple languages like Marathi, Hindi, and English, as well as subjects like Economics, Commerce, and Management in the ICT Department.

Recommendations were made to the concerned Board of Studies at Shivaji University, Kolhapur for further consideration and action.

Research and Teaching Aids:

Feedback from faculty emphasized the need for research to develop new teaching technologies and highlighted the importance of utilizing teaching aids effectively. The institution is taking actions to enhance teaching methods and incorporate suitable teaching aids for an improved learning experience.

Industry Relevance:

Feedback from various industrial organizations stressed the significance of including practical skills such as management, sales management, and communication skills in the curriculum. It was noted that such additions would benefit the students by aligning their skills with industry needs. Recommendations were made to include economics, commerce, and business administration in the curriculum as well.

Subject: Action Taken Report on Marketing & communication Skills
Dear Sir,

I am writing to provide an action taken report on the initiatives undertaken to enhance marketing skills and English speaking proficiency among our students in the department. These efforts have been made to ensure that our graduates are well-prepared for the competitive job market and have the necessary skills to excel in their careers.

Business owners often seek employees or students with strong communication and marketing skills because these skills contribute to the overall success and growth of the business. Whether it's building relationships, negotiating deals, or promoting products and services, these skills are instrumental in achieving business objectives.

Students interested in pursuing careers in business should consider developing and honing their communication and marketing skills through coursework, internships, and practical experiences. These skills will not only make them valuable assets to potential employers but also enhance their own entrepreneurial endeavors if they choose to start their own businesses in the future.

We request to you please consider our view and implement .

Sincerely,

Subject: Changes in the syllabus on the suggestions of students and alumni

Dear sir,

I am writing to provide an action taken report on the measures taken to enhance communication skills among our students. Effective communication is a crucial skill in today's world, and it is our responsibility to ensure that our students are well-equipped in this regard.

Reviewed and updated the English curriculum to include modules that focus specifically on communication skills. Introduced courses that cover various aspects of communication, such as verbal and non-verbal communication, public speaking, and interpersonal communication.

Incorporated interactive learning methods, including group discussions, debates, and role-playing, to encourage active participation and practical application of communication skills. Students have access to these labs to practice speaking, presenting, and receiving feedback.

Overall, the efforts to enhance communication skills have been well-received by both students and faculty. Students have shown improvement in their ability to express themselves effectively, both in academic and real-life situations. We remain committed to further enhancing communication skills among our students and will continue to adapt our strategies to meet their evolving needs. So please consider our request and implement particularly entire level of Ug and PG students

Subject: Request for Course Modification Based on Student Feedback

Dear sir,

I hope this message finds you well. I am writing to you today on behalf of the students and faculty at our esteemed institution, regarding some crucial feedback that has emerged from our recent surveys and discussions. The purpose of this correspondence is to humbly request your consideration for modifying course curriculum in light of these valuable insights.

As a result of a comprehensive survey conducted by our feedback committee, two significant points have come to our attention:

Inclusion of Multiple Languages for Effective Communication: It is highly recommended that our curriculum places a strong emphasis on the development of proficient communication skills, particularly by providing instruction in at least three languages. In today's dynamic and interconnected world, the ability to communicate effectively in multiple languages is increasingly essential, especially in the competitive commercial sector. We believe that this inclusion will better prepare our students to engage with diverse stakeholders and thrive in their future careers.

Enhancing Writing Skills for the Media Industry: Another noteworthy observation from the feedback committee is the rising demand for graduates who possess strong writing skills, particularly in the context of careers within the media industry. Effective written communication is a fundamental requirement in journalism, public relations, and various media-related fields. Therefore, we respectfully urge you to consider integrating coursework that focuses on enhancing writing skills into the curriculum.

We would like to express our sincere gratitude for your attention to these suggestions. We firmly believe that implementing these changes will not only benefit our students but also elevate the reputation of Shivaji University Kolhapur by producing well-rounded graduates who are well-equipped for the challenges of the contemporary job market.

Thank you for your time and dedication to the continuous improvement of our institution.

Warm regards,

Subject: Request for Course Modification Based on Student Feedback

Dear sir,

I hope this letter finds you in good health and high spirits. I am writing to bring to your attention the valuable feedback received from students and the feedback committee at our college regarding the curriculum of our courses. After careful consideration of this feedback, I would like to propose certain modifications to the syllabus to better align it with the needs and expectations of our students and the evolving job market.

Based on the results of a recent survey conducted by the feedback committee, there are two key points that have been consistently highlighted by both students and faculty. Inclusion of Multiple Languages for Effective Communication: It has been suggested that our courses should emphasize the development of good communication skills, particularly by offering instruction in at least three languages. Proficiency in multiple languages is increasingly essential in today's competitive commercial sector, where students are required to interact with diverse stakeholders and markets. We believe that by incorporating this aspect into our curriculum, we can better prepare our students for the challenges they may encounter in their future careers.

Enhancing Writing Skills for the Media Industry: Another notable point raised by the feedback committee is the growing demand for students who possess strong writing skills, particularly for careers in the media industry. Effective communication in written form is a fundamental requirement in journalism, public relations, and various media-related fields. Therefore, we kindly request your consideration in adding coursework that focuses on improving writing skills within the syllabus.

I kindly request that the Board of Study take these suggestions into serious consideration and initiate discussions on how best to incorporate them into our curriculum. We believe that these changes will not only benefit our students but also enhance the reputation of Shivaji University Kolhapur by producing graduates who are well-prepared for the demands of the modern job market.

Thank you for your attention to this important issue, and I look forward to a positive response from the Board of Study.

Sincerely,

Subject : Regarding changing the course as per the suggestion of the subject student

According to the survey conducted by the feedback committee in our college, the following points should be included in the syllabus.

1) Good communication skills should include at least three languages. It is suggested that this is ultimately needed in the commercial sector..

2) There is a demand for students who can understand and communicate well with good writing skills for media industry. However, we request you to consider this suggestion and include it in the syllabus.

Thanking you

Dear Sir,

I have some suggestions to improve skills within our BCA department. Technology is always changing, so it's vital our team has the right skills. Here are my ideas:

Skill Assessment:First, let's assess our team's skills. We need to know what skills we have and where we need improvement.

Skill Development Programs:Next, we should create training programs based on our assessment. These programs can include classes, workshops, online courses, and certifications.

Soft Skills:Soft skills like communication, problem-solving, and adaptability are important too. Let's provide training to improve these skills.

By focusing on skill development, we can keep our BCA department up to date with the latest technology trends. I'm looking forward to discussing and implementing these ideas.

Skill Assessment:First, let's assess our team's skills. We need to know what skills we have and where we need improvement.

Skill Development Programs:Next, we should create training programs based on our assessment. These programs can include classes, workshops, online courses, and certifications.

Soft Skills:Soft skills like communication, problem-solving, and adaptability are important too. Let's provide training to improve these skills.

By focusing on skill development, we can keep our ICT department up to date with the latest technology trends. I'm looking forward to discussing and implementing these ideas.

Sincerely,

Yugle

Subject: Request for Course Modification Based on Student Feedback

Dear sir,

I hope this letter finds you in good health and high spirits. I am writing to bring to your attention the valuable feedback received from students and the feedback committee at our college regarding the curriculum of our courses. After careful consideration of this feedback, I would like to propose certain modifications to the syllabus to better align it with the needs and expectations of our students and the evolving job market.

Based on the results of a recent survey conducted by the feedback committee, there are two key points that have been consistently highlighted by both students and faculty. Inclusion of Multiple Languages for Effective Communication: It has been suggested that our courses should emphasize the development of good communication skills, particularly by offering instruction in at least three languages. Proficiency in multiple languages is increasingly essential in today's competitive commercial sector, where students are required to interact with diverse stakeholders and markets. We believe that by incorporating this aspect into our curriculum, we can better prepare our students for the challenges they may encounter in their future careers.

Enhancing Writing Skills for the Media Industry: Another notable point raised by the feedback committee is the growing demand for students who possess strong writing skills, particularly for careers in the media industry. Effective communication in written form is a fundamental requirement in journalism, public relations, and various media-related fields. Therefore, we kindly request your consideration in adding coursework that focuses on improving writing skills within the syllabus.

I kindly request that the Board of Study take these suggestions into serious consideration and initiate discussions on how best to incorporate them into our curriculum. We believe that these changes will not only benefit our students but also enhance the reputation of Shivaji University Kolhapur by producing graduates who are well-prepared for the demands of the modern job market.

Thank you for your attention to this important issue, and I look forward to a positive response from the Board of Study.

Sincerely,

Dr. Yojana Vasantrao Jugale

Subject: Recommendations for Integrating Skills in the computer ..

I hope this message finds you well. I would like to offer some recommendations regarding the integration of skills within our ICT department. As technology continually evolves, it is crucial that our team possesses a diverse skill set that aligns with the latest industry trends and demands. Here are some suggestions to consider:

Begin by conducting a comprehensive skills assessment within the ICT team. Identify the existing skill sets and pinpoint areas where skill gaps exist.

Skills Development Programs: Develop and implement skills development programs tailored to the needs identified in the assessment. These programs can include training sessions, workshops, online courses, and certifications.

Soft Skills Development: Recognize the importance of soft skills such as communication, problem-solving, and adaptability. Incorporate training and development programs to enhance these skills.

By focusing on skills integration and development, we can ensure that computer science department remains at the forefront of technology and is well-equipped to meet the challenges of the digital era. I look forward to discussing these recommendations further implement them effectively

Sincerely,

Subject: Recommendations for Integrating Skills in the ICT Department

Dear sir,

I would like to share some recommendations regarding the integration of skills within our ICT department. In a rapidly evolving technological landscape, it is essential that our team possesses a diverse skill set that aligns with the latest industry trends and demands. Here are some suggestions to consider:

Begin by conducting a comprehensive skills assessment within the ICT team. Identify the existing skill sets and pinpoint areas where skill gaps exist.

Develop and implement skills development programs tailored to the needs identified in the assessment. These programs can include training sessions, workshops, online courses, and certifications.

Recognize the importance of soft skills such as communication, problem-solving, and adaptability. Incorporate training and development programs to enhance these skills.

By focusing on skills integration and development, we can ensure that the ICT department remains at the forefront of technology and is well-equipped to meet the challenges of the digital era.

We request to you please consider our valuable view and implement them.

Sincerely,

Yug

Subject: Changes in the syllabus on the suggestions of students and alumni

Dear sir,

As per a survey conducted by our college's feedback committee, we would like to propose the following suggestions to be considered for inclusion in the syllabus:

Good communication skills should involve proficiency in at least three languages. This is crucial, especially for the commercial sector.

There is a growing demand for students who possess good writing skills and can effectively understand and communicate for the media industry. We kindly request you to consider this suggestion and incorporate it into the syllabus.

Thank you.

Best regards,
